Rep.: Nils Widing

Dear Sean,

As you requested, we have put together quotes for the lagoon clean out at Canton Drop Forge.

Please see all attached quotes.

Please note that we are using an estimate of 190,000 gallons total between the 2 lagoons during 20 working days in 1 calendar month. This is based on the samples previously received. Used oil pricing is on a sliding scale pertaining to oil/water/soils content. These budget numbers could be off if the oil from the lagoons doesn't match the quart samples we submitted. If the oil begins to not meet specs, the receiving facility reserves the right to halt acceptance at any time. Regarding the tank rental quote (20120827-06), we believe that the tank cleaning will take between 4 to 5 hours, as opposed to the typical 1 to 2 hours, due to the waste stream. Also, this will most likely result in about 10 drums for disposal, as opposed to the typical 5 to 7 drums.

The table below gives an overview of all quotes for an estimated total for the lagoon project.

Quote Number	Description	Total
20120827-05	Pump Rental (1 Month)	\$4,572.00
20120827-06	Tank Rental (Including Tank Cleaning) (1 Month)	\$3,365.00- \$3,600.00
20120827-07	Lagoon 1 Disposal* (115,000 Gallons, Including Transportation)	-\$34,500.00
	Lagoon 2 Disposal** (75,000 Gallons, Including Transportation)	-\$1,650.00
20120827-08	Labor (20 Working Days)	\$8,200.00
Approximate Total: -\$20,013.00 to -\$19,778.00 (Credit)		

**Lagoon 1 disposal assuming used oil is greater than 90% (as sampled).*

***Lagoon 2 disposal assuming used oil is greater than 60% (as sampled).*

Thank you for the opportunity of doing business with you. Please call me if you have any questions.

Sincerely,
Nils Widing
President

---	---	--------------------------------------

Dear Sean,

As you requested, we are submitting the following quote for the rental of one (1) 21,000 gallon, certified clean storage tank for the Canton Drop Forge project:

Description	Quantity	Daily Rental/Unit Cost	Days	Total
21,000 Gallon Certified Clean Tank	1	\$42.00	30	\$1,260.00
MOB/DEMOB/Relocation	1	\$360.00		\$360.00
Fuel Surcharge	1	\$60.00		\$60.00

**Ten (10) day minimum rental period.*

**Fuel Surcharge: currently 30%, subject to change; actual rate to be determined at time of delivery.*

**All rentals are subject to availability.*

Price will be effective for thirty (30) days from the date of this quotation.

Terms: Complete Waste Disposal's general terms and conditions on your Application for Credit are attached to this quote shall apply to this transaction. To the extent that terms and conditions on this quote listed below differ from Complete Waste Disposal's general terms and conditions; the terms and conditions listed below shall apply:

1. No additional or differing terms and conditions.

Minimum rental charge, mob/demob, and fuel surcharge are billed when the equipment is delivered. Thereafter, each additional week is billed following the week of use. Terms are Net 30 Days.

Cleaning and testing: Please keep in mind that unlike most suppliers in the tank rental business, our tanks are "certified clean". This reduces the risk of exposure to accidental cross contamination from other contractors' remediation sites, which could happen if you rent a tank that has not been properly cleaned. To re-certify the tank(s), we follow a 3-step procedure which is part of the rental agreement and which is outlined below:

1. Analysis of fluid: We require that you furnish us with an analysis of the stored fluid prior to picking up the tank(s) at the end of the rental period.
2. Post-use cleaning: The tank(s) must be returned to us in the same condition in which it was/they were received, free of contamination, debris, or sediment. Therefore, if your analysis of the fluid indicated contamination or if there is debris or sediment in the tank(s) remaining after you have drained the fluid, the tank(s) must be cleaned following usage.
3. Post-Cleaning test: If your analytical indicated that the water was contaminated in excess of regulatory levels for groundwater discharge, we require an aqueous test of the rinse water or a wipe test of the tank(s) following cleaning to re-certify the tank(s).

Tank Cleaning Includes:	
Prep Pre-Spray	\$75.00
Pressure washer, confined space entry crew & materials (Typically 1-2 hrs.)	\$175.00/hr.
Disposal-Liquids (Typically 5-7 drums)	\$85.00/drum
Wipe Test	\$60.00- \$120.00/test

For repairs due to damage not caused by normal wear and tear, we will invoice you for time and materials.

Thank you for the opportunity of doing business with you. Please call me if you have any questions.

Sincerely,
Nils Widing
President
